The Johns Hopkins Engineering for Professionals Computer Science program offers students the most cutting-edge knowledge delivered in state-of-the-art facilities or at home.

Computer professionals, scientists, and engineers benefit from a full range of instruction and skills building in a variety of areas including theory, analysis, design, and implementation of information systems. Geared toward preparing students to solve real-world problems, the program provides a unique opportunity to earn a leg-up in this increasingly vital and rapidly evolving field.

ADMISSION REQUIREMENTS
- One year of calculus and a mathematics course beyond calculus (e.g., discrete mathematics, linear algebra, or differential equations)
- Programming using a modern programming language such as Java or C++
- Data structures course
- Computer organization course
- Online application (ep.jhu.edu/apply)
- Application fee of $75
- Official transcripts from all college studies

Applicants who have not satisfied the prerequisite requirements may take: Introduction to Programming Using Java, Data Structures, Computer Organization, or Discrete Mathematics as needed.

DEGREE & CERTIFICATE
Master of Science in Computer Science
Post-Master’s Certificate

LOCATIONS
1. Elkridge, MD
2. Laurel, MD
3. Rockville, MD
4. Online
